

Report No.	DOUS-TBT-106	Project No.	
Date		Project Name	
Vessel / Spread		Offshore Manager	

Copies of the completed Toolbox Talks shall be sent to HSEQS Department upon request.

The Toolbox Talk is a discussion meeting, hence it shall be delivered verbally by a TBT Leader.

Part 1 Project Operational Overview (Tick and discuss the area of operations as applicable)

1	Mobilisation / demobilisation	☐	9	Plough Operations / Launch & Recovery	☐
2	Vessel Transit Operations	☐	10	Trencher Operations / Launch & Recovery	☐
3	Platform 500m Zone Entry	☐	11	ROV Operations / Launch & Recovery	☐
4	Lifts – Deck	☐	12	Simultaneous Operations	☐
5	Lifts – Subsea	☐	13	Abandonment of Asset(s)	☐
6	Deck Operations	☐	14	Recovery of Asset(s)	☐
7	Cable Working Equipment	☐	15	Equipment Maintenance	☒
8	Equipment / Procedure Trials	☐	16	Other:	☐

Part 2 Specific Task (Identify what the task is that is to be performed)

System Maintenance / Hearing Protection.

Part 3 HSE Considerations & Requirements (Tick and discuss as applicable)

1	PPE	☒	14	Environmental Requirements	☐
2	Working at Height	☐	15	Over side Working	☐
3	Risk Assessment / JSA / Take 2	☐	16	Life Saving & Fire Fighting Equipment	☒
4	Lifting Operations & Lift Plans	☐	17	Boat Transfers	☐
5	Manual Handling	☐	18	First Aid – Medical Support	☐
6	Slips, Trips & Falls	☐	19	Housekeeping	☐
7	Permit to Work	☐	20	Noise / Vibration	☒
8	Electrical Work & Precautions	☐	21	Confined Spaces	☐
9	Hot Work	☐	22	COSHH	☐
10	Safety & Warning Signs	☐	23	Stored Pressure Systems	☐
11	Rescue Equipment/Plan	☐	24	HV Electrical Work	☐
12	Communication Protocols	☐	25	Spill Prevention / Containment	☐
13	Dropped Objects	☐	26	Other:	☐

Part 4 Supporting Documents – List applicable documents discussed and reviewed during TBT
(Method Statements, Task Plans, Lift Plans, COSHH RA, Drawing, MOC's, RA's/ SJA's, Storyboards, etc.)

Part 5 Emergency Arrangements
Discuss / list specific Rescue Plans, Contingency Plans as applicable

Name and contact of the assigned Medic / First Aider

Part 6 Life Saving Rules (Identify and tick applicable rules)

 Bypassing Safety Controls ☐	 Confined Space ☐	 Driving ☐	 Energy Isolation ☐	 Hot Work ☐	 Line of Fire ☐	 Safe Mechanical Lifting ☐	 Work Authorisation ☐	 Working at Height ☐
--	---	--	---	---	---	--	---	--

Part 7 Confirm and discuss the subsequent control measures implemented relevant to the Life Saving Rule

Hearing protection is essential when noise exposures can't be controlled at their source.
Check the seal several times each day - protectors (especially ear plugs) work loose and must be resealed.
If a protector doesn't fit correctly and comfortably, see your supervisor about a different type or style.

Part 8 TBT Discussion Topics / Notes (to include reinforcement of ACT for Safety and Stop Work Authority)**Hearing Protection**

Noise is unwanted sound that can affect job performance, safety, and your health. Psychological effects of noise include annoyance and disruption of concentration. Physical effects include loss of hearing, pain, nausea, and interference with communications when the exposure is severe.

Hearing protection is essential when noise exposures can't be controlled at their source. Both earplugs and earmuffs provide a physical barrier that reduces noise levels in the inner ear and prevent hearing loss from occurring. However, people often resist wearing these or use them incorrectly.

Employees resist wearing hearing protection more than any other type of personal protective equipment. One reason is, they don't think they really need it. But hearing loss occurs so gradually (even in intense exposures) that by the time you notice it, irreversible damage has already occurred. Another reason for not wearing hearing protection is that it can feel uncomfortable. Sometimes workers "spring" the muffs so they don't seal properly against the head, or snip off the inner portion of ear plugs leaving only the outer end to fool their supervisor. If you feel the need to do this, see your supervisor about obtaining a different type or style that fits you correctly and comfortably.

Slight initial discomfort may be expected when a good seal between the surface of the skin and the surface of the ear protector is made. The amount of protection you obtain depends on obtaining a good seal and even a small leak can substantially reduce the effectiveness of the protector. Remember to check the seal several times each day. Protectors - especially ear plugs - have a tendency to work loose as a result of talking or chewing, and must be resealed occasionally.

Properly designed, fitted, and clean ear protectors will cause no more discomfort to most workers than wearing a pair of safety glasses. Earplugs are made of soft material such as neoprene to prevent injury to the ear canal. Skin irritations, injured eardrums, or other adverse reactions from using ear plugs are very rare if they are kept reasonably clean.

There are many different styles, types, and brands of ear protectors available, but when correctly fitted, they all provide similar levels of protection. The best hearing protector for you is one that fits correctly so that you can wear it properly.

Some signs that you should be wearing hearing protection include:

1. If it is necessary for you to speak in a very loud voice, or shout directly into the ear of a person to be understood, it is likely that the noise level is high enough to require hearing protection.
2. If you have roaring or ringing noises in your ears at the end of the workday, you are probably being exposed to too much noise.
3. If speech or music sounds muffled to you after you leave work, but it sounds fairly clear in the morning when you return to work, you are being exposed to noise levels that are causing a temporary hearing loss. In time, this can become permanent if you do not take care.

Safety Principle: 'STOP THE JOB' if safety is compromised or you see something going wrong.

Part 9 Identify any actions from TBT and assign Responsible Person and timescale

--

Part 10 TBT Attendees					
Print Name	Sign	Print Name	Sign	Print Name	Sign
TBT Leader Name		TBT Leader Signature		Position	Date
					Time
					0000-2400

Part 11 Confirmation from TBT Leader		
Have all relevant persons involved in / affected by the task attended the TBT?	☒ Yes	☐ No
Have specific roles and responsibilities required for the task been adequately communicated and understood?	☒ Yes	☐ No
Are all control measures understood by those involved and suitably implemented?	☒ Yes	☐ No
