Part 8 TBT Discussion Topics / Notes (to include reinforcement of ACT for Safety and Stop Work Authority)

Suspension Trauma - Emergency Action Plan.

The Emergency Action Plan provides the facility staff and employees with a plan of action in the unfortunate event of a natural or man-made disaster. The intent of this plan is to protect life and property through proper planning and preparation: by auditing the work area, by training employees in emergency procedures, by procuring and maintaining necessary emergency response equipment, and by assigning responsibilities for responding to emergencies. These measures will aid in preserving human life and employer resources during these times. Additionally, the focus of this plan is to help ensure that the safest and most effective actions are taken by all employees to mitigate impact from an emergency situation. Those employees assigned specific emergency duties under the plan shall be provided the necessary training and protective equipment to ensure their safety.

Safety Principle: 'STOP THE JOB' if safety is compromised or you see something going wrong.
